

KLOVE has served me as a resident of my local community. I suffer from severe chronic recurring depression. On more than one occasion, KLOVE's positive and encouraging message has reached me in a time of desperation. I'm sure, by the number of KLOVE bumper stickers I see around Memphis that it has a profound effect on our community. KLOVE is commercial free. We wouldn't support it if we didn't want it! Please don't take our KLOVE away! We need the support of wholesome values, the positive and encouraging impact on our community, and a radio station that doesn't offend us at any time. Please work out a way to preserve the current FM translator service and add LPFM stations if they are so necessary. Don't deprive those of us who depend on the current FM translator service of our freedom to choose KLOVE. Every radio I have is tuned to KLOVE and it plays all day long in my home and/or car. It has been my lifeline. Please don't take it away for more of the same junk that is already available.
